

STILLMAN "HYSTERIA" LETTER PUBLIC

"Fred Has Come Into My Life" Most Important Statement in Frantic Effusion of Lonely and Despondent Woman About To Become Mother.

By Telegram to The Freeman.
New York, May 9.—"Fred has come into my life," wrote Mrs. "Fifi" Potter Stillman to her husband in the famous alleged "hysteria letter," part of which was made public today.

It is the document which James A. Stillman, her multi-millionaire husband, has been battling vainly through his attorneys to introduce as "crushing" evidence in his suit for divorce. It is what his counsel characterized as the "letter of confession."

The brief line quoted above is the only reference to Fred K. Beauvais, half-breed Indian guide, whom Stillman, accused being the father of baby Guy Stillman.

The rest of what became known of the letter today is the frantic effusion of a woman heartbroken, lonely and despondent, over lack of attention from her husband. It grants that a chasm yawns between herself and her husband, and it blames her husband for it. In substance, it is the cry of despair.

"I called you, but you turned a deaf ear to my plea." Here is the full text of that portion of the document which today saw the light of "pitiless publicity" for the first time.

"I have always been on the square with you. Our differences started when your father made it plain that he did not want you to marry me. You know that we have grown apart from each other.

"That was not my fault. I wanted you to come to me, but you would not do so. You left me up in the country all alone, and it was so cold. You were so lonely and wanted you, but you would not come. I am heartbroken.

"Fred has come into my life. It might have been different had you but shown me the attention I was entitled to and come home when I appealed to you."

There, abruptly, ends the published part. Whether the rest, said to be infinitely more sensational will ever be made public was still doubtful today. It was written about seven months before the birth of little Guy. It could not be learned today whether she made any reference to her condition as a prospective mother.

DELAY ELWYN'S SENTENCE WEEK

He Asks Additional Time To Raise Money For Widow And 13 Children of Man Killed By His Automobile.

Sentence in the case of Fred Elwyn of Woodstock, convicted of manslaughter in the second degree in killing Charles Wolven of that place on October 15 last, was postponed by Judge Joseph M. Fowler in county court this morning for one week in order to give Elwyn further time in which to raise the money which will be required to be paid toward the support of the widow and children of the man his auto struck and killed. On making provision for their support, which ended with Wolven's death, it is expected that Judge Fowler will suspend the substantial prison sentence which he announced a week ago it was his intention to impose.

The court convened at ten o'clock. Elwyn, stated that after having ascertained the terms which the court was about to impose, at a conference held by Judge Fowler with District Attorney Traver and himself, he had consulted with Elwyn's family. While he considered the terms severe, they were acceptable to the family, but they had had difficulty in raising the money and would like to have another week.

Judge Fowler said that on account of this being a criminal case, he did not like to prolong it unduly, but if there was the assurance that the case would be disposed of in a week he had suggested, he would grant a further adjournment.

District Attorney Traver said he was willing to have the matter adjourned for a week, but he did not want to be met with a further request for adjournment at that time and believed the matter should be disposed of on the adjourned day.

Mr. Grogan said there was no doubt of the plan being thorough, and he had every reason to believe that everything would be arranged when the case was called next week.

Judge Fowler announced he would postpone sentence on Elwyn until next Monday at noon, and court adjourned until that time.

The terms which Judge Fowler had imposed on Elwyn were not made whereby provision could be made toward the support of Mrs. Wolven and her thirteen children. He would be declined to suspend the execution of a substantial prison sentence which otherwise would be imposed.

Walter G. Camp and wife of Fort Ann N. Y., have conveyed to James S. Kibbe of this city premises at 42 Hurley avenue, \$10,000.

GUNMAN'S SHOT NEARLY STRUCK OFFICER KUEHN

Early Sunday Morning as Bandit Made Successful Break for Liberty—Officer Dempsey Nabs Companion—Both Wanted for Esopus Safe Cracking Job.

Officer Augustus P. Kuehn of the Kingston police force had a narrow escape from being shot about 4 o'clock Sunday morning when a man he had picked up on suspicion made a break for liberty and drawing a gun fired point blank at the policeman, and escaped unscathed as the officer fired in return. The gunman's pal was nabbed by Officer Dempsey before he could also make a dash for liberty, and is being held in the county jail until the authorities complete their investigation of the robbery of the safe in the garage of Percy M. Mott in Esopus. The man being held gives his name as James Lyons and refuses to give out any information as to himself or companions.

Perryman Became Suspicious. The attention of the police was first brought to the case when five men in a Ford car drove down the Sleighsborough hill about 3:30 o'clock Sunday morning, and finding the ferry not running left their car on the hill, and were rowed across the creek by Arthur Bendewald.

The actions of the five men were so suspicious that Bendewald followed them and saw them enter the Popular Lunch on the Strand, and telephoned the police.

In the lunch room it was seen that at least one of the five was armed as the handle of a big revolver protruded from his hip pocket. After having something to eat the party left the lunch room, and two of them proceeded on up Hasbrouck avenue.

Officers Kuehn and Dempsey left the city hall and went out East O'Reilly street and met the two at the Ulster & Delaware railroad crossing at the intersection of Prince street, Hasbrouck avenue and East O'Reilly street.

Shot At Kuehn. Stopping the two men the officers engaged them in conversation and finally invited them to go with them to the city hall. The four walked abreast through East O'Reilly street, and near the municipal buildings the one Officer Kuehn had in charge made a break for liberty and Officer Kuehn in pursuit. The gunman drew his revolver and discharged it almost point blank at the officer, but fortunately his aim was poor and the policeman was not hit. Officer Kuehn pulled his gun and fired at the gunman, but missed his man, who made good his escape in the darkness.

In the meantime as Kuehn's man made his successful break Officer Dempsey reached over and nabbed his man, who later gave the name of Lyons, before he could follow his pal's example.

Lyons Finger-printed. At police headquarters this morning Chief of Police Wood finger-printed Lyons and also photographed him, and will take the matter up with the New York authorities to see if they have his finger prints and record.

Robbed Mott's Safe. Later Sunday morning after the escape of the gunman it was learned that the five men were thought to be the same who after robbing the safe in the garage of Percy M. Mott at Esopus tried to steal a Ford car owned by Mott.

Thieves Wanted Help. Mr. Mott was awakened by a noise outside his home, and arising from bed he looked out the window and saw the five men with a Ford car. Asking them what the trouble was they said they were stalled, and asked him to give them a hand.

Mr. Mott got up and dressed, and went out doors. As he approached the car he made the startling discovery that it was his own Ford Sedan, and asked the five what they meant by taking his car.

The five broke and ran and jumping into their own Ford made a quick getaway.

Mr. Mott then entered his garage, and found that the safe had been tampered with and that \$20 in War Savings and \$1.62 in change was missing. The thieves had also scattered the papers found in the safe on the floor. The safe door was not locked, and the thieves had to do so to pull it open.

Police Have Thieves Car. When the five men reached the Sleighsborough ferry and found it not running they abandoned their Ford car on the Sleighsborough hill where the police later got it and have it stored in the police garage on East O'Reilly street.

Authorities Investigating. This morning Sheriff Kolts and Chief of Police J. Allan Wood went to Esopus to investigate the scene of the robbery of the Mott safe, and it is likely that the chief will seek to find finger prints corresponding with those of Lyons who is being held to await a hearing.

Mr. Mott obtained a warrant from Judge McKenney charging Lyons with robbery, and he will later be arraigned.

Another New Inspector. Miss Julia Boright of Chatham, who was formerly physical training instructor in the schools of that village, has been appointed physical training instructor for the public schools of Ulster, Orange and Sullivan counties.

CHURCH WINDOWS ARE UNVEILED

Those Presented to Clinton Avenue M. E. Church Sunday Included Two for Mothers and One in Honor of Pastor and His Wife.

A very interesting service was held in the Clinton Avenue M. E. Church Sunday at the regular Sunday school hour when several windows were unveiled and presented to the church by members of the different Sunday school classes and societies of the church. The first two windows presented were in memory of two of the former teachers of the Sunday school who have died. The windows were covered with American flags and as each one was unveiled and presented by the members of the class or society, a brief presentation address was made by a member of the class presenting it or one selected to make the address.

The first window was in memory of Mrs. Anna P. Schepmoes, a teacher in the Sunday school for over thirty years. The window was presented by the Pearl Gatherers and the address was made by Mrs. O. Wood.

The second window was in memory of Mrs. Tetley by the members of Mizpah Class. The address was made by Mrs. George Cranston.

One of the windows was given by the Ladies' Aid Society, the presentation address being by Mrs. W. D. Pettenger. The King's Daughters of the Clinton Avenue Church gave another, the address being by Major Cranston.

Miss Ruth Bell, on behalf of the Willing Workers, gave another window in honor of their teacher, Mrs. E. M. Kniskern. The Good Will Class presented another, the address being by Miss Mary Van Gaasbeck.

The Winners Bible Class, as a surprise to Mr. and Mrs. George Cranston, gave a window in honor of Mr. and Mrs. Cranston. The inscription had not been placed on this window until late Saturday afternoon and the presentation was a complete surprise to both Mr. and Mrs. Cranston.

The address was made by the Rev. P. C. Went, a very dear friend of Mr. and Mrs. Cranston, and a man who is held in high esteem by all members of the Clinton Avenue Church and Sunday school. Mr. Weyant in presenting the window gave a very interesting talk.

All of the windows were received by the assistant superintendent of the Sunday school, F. S. Hyatt. The program was presided over by the superintendent, E. B. Schepmoes, and was interspersed with several musical numbers by the school and several special numbers. The service was particularly appropriate taking place on Mothers' Day, as two of the windows were in memory of two mothers and former workers in the church, Mrs. Tetley and Mrs. Schepmoes.

The designs of the windows are unusually beautiful and with the recent decorations placed in the Sunday school room make it one of the finest in the city. The services were attended by about 400 scholars and their friends.

KINGSTONIANS SAW NEW CAR. New Burglar-Proof Mail Car Stopped at Rhinecliff Sunday.

A number of Kingston people who were at the Rhinecliff station Sunday afternoon saw the newly invented burglar proof "container car" which is being tested by the New York Central railroad by order of the post office department. The car arrived at New York, completing its first round trip to Chicago in the mail service.

The new car, which formed the first of a mail train, consists of five huge steel safes which are set in a flat car, from which they are lifted at the terminals by large steel cranes. The doors cannot be opened until the safe has been lifted from the car. Besides the regular mail cars, the train contained also a private car whose passengers were J. L. Davis and E. H. Otis, assistant superintendents of railway mail service in Washington, and Fred Hance, assistant superintendent of railway mail service in New York city. The mail train stopped at Rhinecliff for a minute while several sacks of mail were unloaded.

On Plank Road and Sheriff Was Called. Sheriff Kolts was notified Sunday evening about 9:20 o'clock of an automobile accident on the Plank road near the farm of August Grass. A delivery car driven by Louis Swartz of this city and a Ford touring car operated by William Arnold of Marlborough had come together and the cars were damaged considerably. No one was injured and the cars were brought to Kingston for repairs. The car driven by Swartz was found by the sheriff on the right hand side of the road about two feet from the guard rail and had evidently been run into by the other car which was coming toward Kingston.

Dangerous For Vehicles. A section of the roadway near John Walker's farm on the Plank road has been down nearly a foot, making a dangerous spot for automobiles. The danger was caused at that place by a heavy rain and the water was washed out under the bank causing the road to settle.

Annual Banquet Tonight. The annual banquet and meeting of the Y. M. C. A. will be held this evening at 8:20 o'clock. Every-thing is in readiness and the speaker will be present and an enjoyable evening is assured all who attend.

Housewives' Friends. Gregory & Co. are preparing special demonstration days on Thursday, Friday, and Saturday, 12th, 13th, and 14th. Agents from different manufacturing companies will be on hand to demonstrate the Laundry-Etting Machine, Easy Washing Machine, Florence Oil Stoves, Thermomax Iceless Refrigerators, Duplex Fireless Cookers, Walker's Electric Dish Washers, White Frost Enameled Refrigerators, The Vital and Vacuum Carpet Sweepers, Hoover Electric Vacuum.

The public is cordially invited to attend these demonstrations on the above dates.

Watch for their large advertisement in The Freeman.

Interest in Rockall. Music lovers of Kingston are showing much interest in the recital to be given by the society of young people of the Albany Avenue Baptist Church on Friday evening, judging by the advance sale of tickets. This is readily understood as one looks over the names of those who will participate in the program: Miss Mary E. Neome, reader; Mrs. H. F. Dunsbar, soprano soloist; Mrs. Florence W. Cabberty, violinist; Harold S. Brichman, baritone soloist; Miss Lucinda Merrill, accompanist.

Superintendent's Salaries Raised. The district superintendents of the Newburgh, Kingston and Poughkeepsie districts of the Methodist Episcopal Church, in view of increased cost of traveling, have had their salaries and traveling expenses, etc., increased as follows: Newburgh, \$750 a year; Kingston, \$600 and Poughkeepsie, \$750.

Circus On The Road. Advertising car No. 1, of the Sefton circus and menagerie was attached to the Wood Shore passenger train Sunday morning about 10 o'clock, going to Albany. The shows will be in that city May 23.

Accident Position. Mr. Gertrude Brown, a graduate of the Morgan Business School, Poughkeepsie, has accepted a position as stenographer with the Lewis Schreyer, John and Crova streets, this city.

MERCHANTS MAKE PROMISES GOOD

That Is Why Dollar Days Continue to "Go Over"—Next One Is Thursday and "Ads" From Now on Will Be of Great Value to Thrifts.

Dollar Day will be generally observed by merchants throughout the city on Thursday, and thousands of dollars worth of merchandise which has been bought especially for the special Dollar Day Sales to be conducted on that day will then be offered to the public.

Kingston was one of the first cities in the country to adopt Dollar Day sales, and the success of such sales in the past augurs well for the big sale on Thursday. Sales of this character cannot be continued as they have been in this city unless buyers found them all they are represented, and the continued success of the sales here indicates not only the confidence which buyers have in the character of the city merchants but also that the merchants on each occasion have made good their promises of bargains.

Buyers at the Kingston Dollar Day Sales are not confined to residents of Kingston or Ulster county, but experience has shown that they come from all the adjoining counties. At the present time the number of buyers undoubtedly will be augmented by numerous boarders who already have begun to come to the summer hotels and boarding houses abounding in this region. Each year brings many customers to Kingston city merchants from the big cities who say they can buy more cheaply here than in New York or Brooklyn because merchants here are not compelled to pay the big rentals prevailing in bigger cities.

Daily examination of the advertising columns of The Freeman will show that Kingston merchants are well prepared for Thursday's Dollar Day. Some of the Dollar Day Sale advertisements appear in tonight's issues will be found in the advertisements Tuesday night and still more on Wednesday. The Freeman's advertising columns for the next few days will prove interesting to everybody. There is not a man or woman in the city or county who cannot think of some one or more articles of which he is in need. Probably the articles will be found in the advertising columns. But it is impossible for any merchant to advertise every article offered for sale and a visit to any of the stores which are advertising their Dollar Day Sales will amply repay the buyer, no matter what is wanted.

HOUSEWIVES' FRIENDS. To be Demonstrated at Gregory's This Week.

Gregory & Co. are preparing special demonstration days on Thursday, Friday, and Saturday, 12th, 13th, and 14th. Agents from different manufacturing companies will be on hand to demonstrate the Laundry-Etting Machine, Easy Washing Machine, Florence Oil Stoves, Thermomax Iceless Refrigerators, Duplex Fireless Cookers, Walker's Electric Dish Washers, White Frost Enameled Refrigerators, The Vital and Vacuum Carpet Sweepers, Hoover Electric Vacuum.

The public is cordially invited to attend these demonstrations on the above dates.

ULSTER FRUIT CROP ALL RIGHT

Report Sent Out From Albany Did Not State the Facts and Seems Without Reason or Excuse.

Commissioner Hogue to the contrary notwithstanding, there will be a peach crop in the Hudson river valley this year. Also there will be a good crop of every other kind of fruit, with the exception of cherries, which were damaged about 80 per cent, and slight damage to Baldwin apples in a few localities. The Ulster County Farm Bureau is authority for this statement.

Commissioner Hogue must have had a brainstorm when he prepared the article which he sent out to the press and which The Freeman printed a few days ago because it felt that an official statement should be authentic. The commissioner had full data sent him by the Farm Bureau but must have preferred to use the output of the professional calamity howlers who begin reporting the fruit crop killed every year along about Christmas and keep it up all winter and spring.

Fruitgrowers are asking: Why is Commissioner Hogue?

It Happened in Rensselaer County—Defendant Lives in Dutchess—Colonel Gillette is Counsel.

A motion to change the place of trial from Albany to Dutchess county of the action brought by William G. Donovan against Edward F. Canpron was argued before Judge Hasbrouck on Saturday by ex-Mayor William D. Brinlier, representing John E. Mack, for the defendant and the motion, and was opposed by Colonel Ransom H. Gillette of Albany, attorney for the plaintiff.

The action is brought to recover damages to an automobile caused by a collision between the plaintiff's car and a motor truck of the defendant, which occurred in Rensselaer county. Mr. Brinlier said the cause of action arose in Rensselaer county, the plaintiff resided in Madison county, the defendant lived in Dutchess county and the venue was laid in Albany county. The defendant had eleven or twelve witnesses living in Dutchess county and he asked a change of venue on the ground of convenience of witnesses. The truck of the defendant was claimed by him to be on the right side of the road when the accident happened, but the plaintiff claimed it was in the center of the road. Anyway, the defendant came along and skidded into it.

Colonel Gillette said that through an error the records of the secretary of state's office showed the plaintiff a resident of Madison county, but as a matter of fact he lived in Columbia county when the automobile license was issued and now lived at Watervliet, Albany county. The defendant's witnesses were all employees, while the plaintiff had seven or eight witnesses with whom he was not connected in any way, all of whom lived within seven miles of Watervliet. Decision was reserved.

HOUSEWIVES' FRIENDS. To be Demonstrated at Gregory's This Week.

Gregory & Co. are preparing special demonstration days on Thursday, Friday, and Saturday, 12th, 13th, and 14th. TROLLEY COMPANY MAKES BETTER SHOWING UNDER INCREASED FARE

Net Loss For Quarter Ended March 31, 1921, Is \$2,146 Against \$5,328 For Like Period in 1920—Revenue Increases While Operating Expenses are Lower.

The Kingston Consolidated Railroad Company, for the quarter ended March 31, 1921, operated at a net loss of \$2,146, as shown by its report to the Public Service Commission. A marked improvement over the corresponding quarter in 1920, is shown, however, when the loss was \$5,328. This year the operating revenue showed a substantial increase while the operating expenses were decreased nearly \$1,500. Interest on the funded debt, as usual, made the biggest hole in the revenue, amounting to \$8,076, and deductions not itemized were \$2,235 this year against \$754 in 1920.

This is one of the company's "lean" quarters, travel being the smallest of the year. The condensed profit and loss statement compiled by the commission from the company's report for the two quarters, follows:

	1920	1921
Railway operating revenues	Dollars	Dollars
Railway operating expenses	48,381	51,002
Net revenue, railway operations	42,036	40,605
Net operating revenue	6,248	10,397
Taxes assignable to railway operation	6,248	10,397
Operating income	2,638	2,707
Gross income	3,600	7,790
Interest on funded debt	3,600	8,240
Interest on unfunded debt	8,100	8,076
Other deductions	75	75
Total deductions from gross income	754	2,235
Net corporate loss	8,922	10,336
	5,328	2,146

A 10-CENT LOAF IS NOW 9 CENTS

Some of the local bakers have dropped the price of the ten-cent loaf of bread to nine cents, and the new price went into effect last week. The Mohican Company is selling the 8-cent size loaf at 6 cents, which is the lowest price in the city. With the price of flour and other baking material dropping the price of bread is also declining although it is hardly likely that the five-cent loaf will hit Kingston, at least right away.

FRANK'S CASE AGAIN IN COURT

Sullivan County Man Borrowed Wife's Money For Half Interest In Farm—Gave Her Quarter Interest.

A hearing was had before Judge Hasbrouck at the special term of the Supreme court at the court house on Saturday in the case of Julia Frank against Harry Frank, in which the defendant appeared before the judge at the April special term announced that he had been the victim of a "genuine vampire."

At that time he had been served with an order to show cause why he should not be punished for contempt of court for failure to pay alimony and counsel fee to his wife in the latter's suit for separation from him, and as he said he had no counsel and could not afford to hire an attorney, Judge Hasbrouck asked Mr. Foster, an attorney of Liberty, Sullivan county, to consult with Frank in order that he might have his day in court.

Mr. Foster on Saturday asked Judge Hasbrouck to open the default by which judgment had been taken against Frank. He said Frank claimed he had tried unsuccessfully to get the services of an attorney, that he had written a letter to John D. Lyons, attorney for Mrs. Frank, before the expiration of the twenty days in which he might answer, but that he had been ignorant of the law and procedure.

Mr. Lyons, in opposition to the motion, said Frank was not acting in good faith. It was true, Frank had written to him, but the letter was a scurrilous one. According to Frank's own statement at the last special term, he had borrowed nearly all the money from his wife to pay one-half the cost of buying a house, and it now appeared he had given her only a quarter interest in the property. Mr. Lyons said that after the property had been purchased, he induced her to sign a paper agreeing to work in New York city and help earn money to pay the running expenses of the place, and then had put her out.

Judge Hasbrouck reserved decision.

7 TONS OF POST CARDS. Received by William O'Reilly in One Shipment.

One of the largest shipments of post cards known to be consigned to any jobber in this section was received Saturday by William O'Reilly, the Broadway stationer and jobber. These post cards will be distributed to dealers in Ulster and the several adjoining counties, Delaware, Greene, Dutchess, Orange, Columbia and Sullivan. Views of the Catskills, Ashokan Park, Mohawk Lake, Minnewaska Lake, Rhinebeck, Ellenburg, Saugerties, Kingston, the Hudson river and other spots of interest are represented in the shipment were over three million post cards the weight of the consignment being over seven tons.

Under Arm Cracking Ford. Ford Motor of 32 Crown street, Flung Boren of 32 Crown street, who is employed by George J. Liberty, who has been sued for \$25,000 because Mr. Boren made an imperfect search of title to the property.

BURGLARS GOT VELLI'S \$290

Further investigation made by Under Sheriff Tunis Haulenbeck, Friday, as to the burglarious entry of the home of Tony and Louis Velli at West Park a few days ago, shows that robbery was committed. From what Under Sheriff Haulenbeck learned \$290 in money and an Elgin gold watch was stolen. This was discovered by Tony Velli who was not at home when the first investigation was made. He works during the day on the railroad and Louis works nights. The latter returns home at about 7:45 in the morning, while Tony goes to his work at 6 o'clock, which indicates the robbery was committed between those hours as neither are at home then. The money and watch was in the second drawer of a bureau and the top drawer was forcibly opened, pulled out and the booty taken from the drawer under it without forcing it open. The Velli brothers who are widowers have lived alone together for some time and being industrious men have the respect of the people in the West Park section.

DISPUTE OVER HOTEL PROPERTY

Sale Of Livingston Manor Hotel Results In Three Law Suits—Judge Howard Will Try Two.

An action involving the Sherwood Hotel at Livingston Manor, Sullivan county, brought by Stephen H. Sherwood against Jacob Story, came before Judge Hasbrouck at Saturday's special term of the supreme court, when a motion was made by the defendant to vacate an injunction heretofore granted by the judge restraining the defendant from the use of certain personal property in the hotel.

Counsel stated that the plaintiff and defendant entered in a contract by which the defendant was to purchase the hotel property for \$14,000, paying \$4,000 in cash and giving the balance money mortgage for the balance. The sum of \$1,000 was paid and the balance of the cash payment was to be made when the deed was delivered. When the time came to pay the balance, at the office of a lawyer at Liberty, Sullivan county, \$12 was paid in cash and a certified check given for the balance. The check was returned by the bank, however, as there was a discrepancy between the written words and the figures. The latter being for the correct amount, \$2,788, and the written words calling for \$2,088. The defendant claims that as he was unloading the contents of a furniture van from New York city at the hotel, assisted by the plaintiff, he was told by two lawyers that his title was no good because there was a claim made by Mr. Livingston to the property. He claims that was his first knowledge of any defect in the title. Later the plaintiff began replying proceedings to recover his personal property, but the property was returned when the defendant gave a bond. The defendant is now in possession.

John D. Lyons, who appeared for the plaintiff, said the defendant was aware of the claim of Mr. Livingston, and had talked about it publicly before buying the property, and that provision had been made regarding it.

James H. as the representative action will be tried before Judge Howard at Monticello next week. Judge Hasbrouck referred the present motion to this action.

A third suit arising out of the transaction has been brought against T. S. Hill, the well known lawyer of Liberty, who has been sued for \$25,000 because Mr. Story claims he made an imperfect search of title to the property.

MOSSER BUSY ON SAVING PLAN

High School Students Hope Of County. Treasury Representative Tells Them Here—Efficient Education Need of Times.

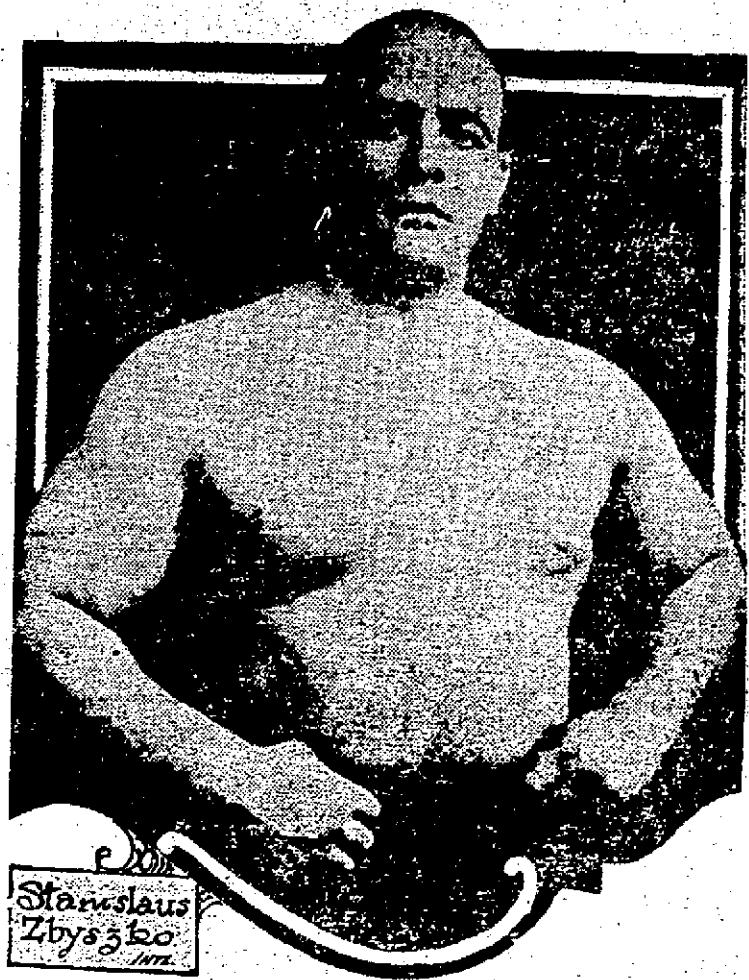

The part Young America will play in the financial reconstruction of our country will be told to the students of the Kingston High School at the morning assembly next Wednesday by George H. Mosser, who is promoting the saving and investment plan of the United States Treasury in Ulster County for two weeks.

Mr. Mosser has spoken to more than 200,000 pupils, students, teachers and educators in New York and New Jersey in the past two and a half years in the development of the thrift idea. For two years he has been on the staff of the school commissioner of New Jersey as an instructor at the sessions of the various county and city teachers' institutes. He also has addressed many teachers' conferences in New York state.

"The hope of our country is in the boys and girls who are coming out of High School," says Mr. Mosser, who, before becoming a newspaper editor and later a chamber of commerce manager, was a school superintendent. "We are entering an era when our boys and girls must be more specifically trained to play their parts in life. Education is becoming more and more a thing of special training. There is to be less waste. Particularly in the financial sense to be brought into bolder relief. We want more boys and girls who will become producers, who know the value of money and how to use it wisely. Then our economic conditions will improve. If America is to hold her place at the front in the commercial competition with Europe that is approaching, it is because our educational factories will turn out the best trained human products to keep us there."

William C. DeWitt, president, and J. A. McCombs, vice president, have engaged Mr. Mosser to speak to the Parent-Teachers Association next Wednesday night. He has spoken to similar associations all over the Second Federal Reserve district.

Engagements to continue the work of forming treasury savings associations in Kingston industrial plants the coming week are being made by Postmaster DeWitt and his aides in the Sensible Saving and Sound Investment movement.

Stanislaus Zbyszko, the aged Pole, is today the heavyweight wrestling champion of the world. The veteran wrestler, who is close upon the half-century mark in years, dethroned Ed "Strangler" Lewis in a sensational match at New York. The end came in 23 minutes and 17 seconds, so suddenly that the 12,000 fans who crowded the armory got the shock of their lives. After twenty minutes of whirlwind wrestling the champion sprang at the Pole in an attempt to secure his famous "headlock," missed and fell upon his back. Before he could scramble back to his feet Zbyszko pounced upon him and pinned his shoulders to the mat with a neck lock. The match was staged for the benefit of the Relief of Ireland Fund. Zbyszko is the oldest active wrestler in the world and has been defeated only once, when he was thrown by Frank Gotch in 1910. Since that defeat the veteran Pole has taken part in 927 matches.

Laurence O'Neil, Lord Mayor of Dublin, Ireland, who is in the United States to aid the Irish relief, was officially welcomed in New York recently by Mayor John F. Hyland. In the private office of Mayor Hyland in the City Hall the two discussed conditions in Ireland for half an hour. The photograph shows Lord Mayor O'Neil and Mayor Hyland shaking hands.

Employment.
Nothing does a foreign-born workman to a man or a job as much as a home to live in and a truck patch to work. It is a wholly American idea, the foreign-born here struggles and toils. Many of them have lost the first opportunity, but they have not the money to build homes except on really easy terms.—Chicago Evening Post.

The Uninvited Guest.
One evening I dropped in to see some intimate friends. When I entered the house I discovered to my surprise that they had friends for dinner. Before I could excuse myself their youngest daughter, Elizabeth, asked me if I had been invited to the party. Upon answering in the negative, she said, "Well, why did you come?"—Chicago Tribune.

STATE POPULATION NOW 10,385,227

New York state's population, according to the last census is 10,385,227, an increase of 1,271,613 or 14 per cent since 1910. New York state has 59 cities of which six have more than 100,000 inhabitants and sixteen have from 25,000 to 100,000. The following summary shows the population of Kingston, Newburgh and Poughkeepsie for which figures are available and the number and percent increase during preceding decade:

Kingston.			
1920	24,485	780	3.0
1910	23,705	1,373	5.6
1900	24,535	3,274	13.4
1890	21,261	2,811	13.9
1880	18,344	12,029	190.5
1870	6,315		
Newburgh.			
1920	30,366	2,561	9.2
1910	27,005	2,862	11.5
1900	24,943	1,856	8.0
1890	23,087	5,038	27.9
1880	18,049	1,035	6.1
1870	17,014		
Poughkeepsie.			
1920	35,000	7,064	25.3
1910	27,936	3,907	16.3
1900	24,029	1,823	8.2
1890	22,206	1,999	9.9
1880	20,207	127	0.6
1870	20,080	3,354	36.4
1860	14,726		

Justice Hasbrouck at Troy.
Justice G. D. B. Hasbrouck is presiding at the May term of the supreme court which convened at Troy this afternoon.

FINE ARRAY FOR DOLLAR DAY

To the Public:
Kingston stores have joined in a city wide Dollar Day.

According to advices received by me from different merchants they will place before the shoppers of Ulster county on Thursday the finest array of real bargains seen in years.

Each store will contribute its share so that there will be hundreds of opportunities for everybody to save substantially on every purchase made in this big event.

After months of planning by the merchants, everything is ready.

Thousands and thousands of dollars' worth of new merchandise has been bought for this Dollar Day sale and with the keen competition between the stores, it is safe to say that the good old American dollar will be stretched to almost unbelievable lengths.

I would advise the public to read the advertisements thoroughly and plan to realize to the utmost the great advantages of this sale.

Respectfully yours,
W. H. RUDDERHAM,
Chairman Retail Branch, Chamber of Commerce.

World's Debt to Marco Polo.
Marco Polo was the first man to trace a route across the whole longitude of Asia. He gave the first accurate information on Tibet, Japan, China and the Orient generally. He hastened the adoption by Europe of the use of gunpowder and industrial processes which the East had produced. He was an innovator as a military architect and as a bridge builder. He opened the eyes of the business men of Europe and through them of the world as we know it today, to the possibilities of trade with the Orient. He knew at least three of the important languages of the East, and stimulated the West to a study of them. He described accurately valuable regions with which Europe did not really get in touch until the Nineteenth century, and this in spite of the fact that his explorations came to the last part of the Thirteenth century.

"Coffee Tree."
The Kentucky coffee tree would be an unusually good lawn tree except for the fact that it is very slow in getting its leaves in the spring. Where that failing is not allowed to score against it, it is distinctly worth getting acquainted with, for it is unusually free from insect pests or fungus troubles, and makes a clean, stout growth. The tree will ultimately grow a hundred feet high in good soil, and has long greenish-white flowers in large panicles at the ends of the branches. Following the flowers come pods which resemble those of beans, and which often stick to the tree through the winter, giving it a very peculiar aspect. In Revolutionary times the seeds in these pods were used for making coffee, which accounts for the name the tree now bears.—Exchange.

Find Many Uses for Borax.
Borax as a solvent for shellac finds extensive application in the hat trade. In tanning, both borax and boric acid are used for cleaning the hides and dressing the leather. In the textile industry borax assists in dyeing, and in some parts of the world boric acid is still employed in the preservation of foods. It is permitted in the salting of fish because such foods are soaked in water before cooking and most of the boric acid is employed for external washes and it finds a place in cosmetics. It is used as a lye substitute where it is recommended for the destruction of fly larvae in manures for it destroys the larvae without affecting the bacteria which increase the fertilizer value of the manure. Finally, borax is a well-known flux used in metal working.

Getting Closer.
Science is getting more and more precise. A French scientist announced that he can come within 200,000,000 of 20,000,000 years of fixing the time when life began on the earth.

The Keys quadruplets of Hollis, Oklahoma, the only quadruplets in that state, will celebrate their sixth birthday on June 4 next. The children, of average size and lively dispositions, are declared to be the healthiest and happiest youngsters in Oklahoma. The four girls, daughters of Mr. and Mrs. F. M. Keys, play together, eat together, and do almost everything else together in perfect harmony. They have not been ill a day since their births. The four, from left to right, Roberta, Mona, Mary and Leota, are shown in the photograph in the order of their birth. The first three are brunettes and the fourth is a blonde.

MERRITT & LOWN ADD NEW MEMBER

Becoming effective on May 1, the well-known firm of Merritt & Lown, general insurance and real estate agents at 258 Wall street, became Merritt, Lown & Cook. The new member of the firm is Albert N. Cook of 27 Starbuck street, a popular young man with many friends, who served in the world war. Since his discharge from the service about two years ago Mr. Cook has been in the employ of the Travelers' Insurance Company at Hartford, Conn. His personality together with his first-hand knowledge of insurance, especially in the casualty line, will add to the already efficient organization of the former firm.

Captain James Baca, of Santa Fe, former Adjutant-General of the New Mexico National Guard, is now likely to be kept busy saluting his superior officer. He is a well-trained soldier, however, and especially under the circumstances doesn't need to be told that obedience is a soldier's first duty. For Mrs. Baca is now a full-fledged major in the military organization, formerly headed by her husband. The new adjutant-general, upon taking office, found Mrs. Baca performing the duties of stenographer in the office. It didn't take him long to discover that she was not only a first-class stenographer but knew just a little bit more about running the office than anyone in sight. So there was simply nothing to do but make her assistant adjutant-general with the rank of major. Mrs. Baca is the only woman national guard officer in New Mexico, if not in the United States.

KINGSTON, N. Y., MAY 9, 1921.

JURYWOMEN AND ATTORNEYS

There is said to be much excitement in Orange, N. J., and talk of declaring a mistrial, because, after a jury of women had given a verdict for the defendant, it was learned that counsel for the defense had taken one of the jurywomen out to luncheon. The said jurywoman indignantly declares that the case was not even mentioned during a perfectly innocent social hour, but as to this there is skepticism in Orange and the friends of the lost case are reported to be convinced that the fate of the lawsuit was decided in a restaurant. Members of the bar, while gallantly declining to comment on the acceptance of the luncheon invitation, are quoted as saying that such conduct on the part of a lawyer is highly unprofessional.

If the expenses of a case are to be extended to include restaurant bills, the law will acquire new terrors, in the opinion of the New York Times, which comments further: "And, if the precedent is permitted to stand, it is hard to see how any diligent lawyer can refrain from buying an occasional luncheon for a member of the jury. No doubt there will in time be professional or semi-professional jurywomen, as there are jurymen. Some of them, no doubt, will be young and personable. For them their career will be lucrative, for in addition to the ordinary remuneration of jury duty they will get most of their meals free. No one need waste any sympathy on the lawyers whose duty compels them to buy dinners for pretty jury girls in the early twenties, with the unhappy client paying the bill." It may well be added that, unless membership is restricted to the elderly or personally unattractive, juries of women are likely to bring some rather perplexing problems into the courts.

ANOTHER BACHELOR TAX.

Some time ago the legislature of Montana passed a bill levying a poll tax of \$3 upon single men, and now William Antzinger of Great Falls comes into the limelight by refusing to pay it. He submits that he is still single at 35 through no fault of his own, and is further quoted: "Spinners, in their refusals of my wooings in the past, are responsible for my not being married. Tax the spinners of the same age as myself and I will gladly pay, but otherwise it is class legislation and I stand upon my rights."

Formerly the question might have been raised as to whether bachelors have any rights that married legislators or other persons are bound to respect, but in these days of woman suffrage, the extension of taxation where women are concerned, and the urgent need of large government revenues, it is barely possible that the point made by Mr. Antzinger will be considered and the "bachelor tax" extended to include unmarried women beyond a certain age. In that case protesting Montana spinners would find themselves in an awkward position. Can even one of them be expected to come forward and declare that she is single through no fault of her own? It has been frequently observed that spinners are well pleased to convey the impression that in their time they turned down at least half a dozen wooers, and if there is one ready to make public confession that no man ever proposed to her she would be hard to locate.

Secretary Mellon well says that the Federal government is spending money at "a shocking rate," after pointing out that the annual expenditure during the fiscal year 1922, including interest, will be over \$4,000,000,000. Perhaps the most disturbing feature is that of this amount \$1,000,000,000 (not including pensions) will be spent on the army and navy—a sum in excess of the total cost of the Government before a great war which made practically the whole world lean for some means of enforcing permanent peace.

The "door to Washington," the only door to which the rainbow-chasing Germans admitted a willingness to knock at, was definitely closed by the note of Secretary Hughes dispatched to Berlin on the night of May 2. The attempt to bring Germany to the side of Germany

against the Allies has utterly failed. The only course now left open to the Germans is to agree with their adversaries quickly, and they would be wise to do so without delay, for the time is short.

It is announced from the Field Museum of Chicago that, contrary to the "treat 'em rough" business of the novelists, the stage and the movies, cave men were really gentle in their wooing and most considerate of their mates. How the Field Museum happened to unearth so revolutionary a bit of information is not stated.

Because "all coons look alike" to the American marines in Haiti, in their management of the elections they require each voter as he casts his ballot to dip his right forefinger in a solution of nitrate of silver, which darkens the finger nail of even the blackest negro for the rest of the day and thus prevents repeated voting.

THE OFFICE CAT

By Junius

A Referendum.

(Detroit Free Press)
My advertisement of February 24 was an error. I will be responsible for my wife's debts.

Leo Tyo.

Who Remembers?

Who remembers the old fashioned girl who wore so many pins in her waist line that you took chances with lockjaw every time you hugged her.

It is said now and then you find a family which consists of a wife, a dog, and a home brew machine.

And, while sending flowers to mother, don't overlook a few pieces of patching material for dad.

Spring Warble.

The birds that sing
In spring
Don't charge for seats
By jing.

The flowers upon
The tree
Are free for all
To see.

The poets hail
In rhyme
Fair spring, a glad
Some time.

Two South Carolina editors are calling each other "polecat!" The distance is too great for us to judge, any way the wind isn't in the right direction, but doubtless they're both right.

Typical Theater Post.

The smalltown hick who considers a bovine smacking of the lips during a kissing scene as the very ultimate in exquisite humor.

"The best way to avoid sleeping sickness," says the New York Sun, "is to keep moving." The house hunting before moving also helps.

After serving eight months of a ten month's sentence for a \$300,000 swindle, a New York broker has been released. Still, when you come to think about it, \$122,500 a month isn't such a poor income, even for a broker.

F. P. A., whose mission in life is to detect and gloat over the boners of his fellow mortals, refers to Felicia Hemans's well known poem as "The Landing of the Pilgrim Fathers." Har-har.

Our observation has been that the happiest homes are those in which the wife thinks the husband knows everything.

Never ask a stranger his stand on the liquor question. He may be a bootlegger. In that case he doesn't stand. He lies.

TWENTY AND TEN YEARS AGO.

May 8, 1901.—Miss Erma Reed and Edward F. Loper married.
Death of Mrs. Walter C. Myers at Williamsport, Pa.
May 3, 1901.—Claude Salisbury badly hurt by breaking of pole on which he was working at Saenger's West Shore Gun Club organized with B. Lawrence president.

May 3, 1901.—Forest fire threatened destruction of Mead's Mountain House and the Overlook House.

John J. Campbell awarded contract to erect the new Elks' building on Fair street.

May 3, 1911.—Death of William H. Meehan on Broadway.

John E. Rafferty became member of police board and John E. Mahan of health board.

Ex-Serviceman Seeks Employment.
Isaac Goldenberg, 28, a patient at the Subler Sanatorium, who has recovered after treatment, seeks work. He has a good education, some experience at stock clipping and order filling, and would be willing to accept unskilled work. He has an honorable discharge from the army and good references.

HAPPY DAYS AT HAMELIN'S

Recalled in Verse By One Who Strayed Far West.

James G. Buckley who left Kingston in November, 1870, and has spent the past fifty years in various parts of the United States, a majority of them in California, is visiting "his old home town." While at Fellows, Cal., Mr. Buckley being in a reminiscent mood thought of the happy days of boyhood when he and other youngsters spent much of their time at the fruit and candy store of Uncle Billy Hamblin, corner of Main and Fair streets. The Burgevin building is now on that site. The following lines were penned by Mr. Buckley:

Billy Hamblin's Corner, 1866.
You remember as well as I
The corner where we met;
Many years have passed since then,
But the corner is there yet.

Yes, many years have passed since then,
And I have done much rambling,
But my memory still is with the boys
When we bothered Billy Hamblin.

Every evening we did meet
Under that wooden awning,
And if Billy didn't drive us off
We wouldn't go home 'til morning.

We surely were a happy lot
When seated on that bench,
Drinking Billy's home root beer
And thus our thirst would quench.

Yes, we did pay him for cigars,
But the peanuts we did take;
His profit only was on smokes,
On the peanuts he did not make.

Charlie Becker and Jim Buckley
Were of that merry lot,
Though there were others plenty
Whose names I have forgot.

Gus Van Buren and McIntyre
We called the Hamblin twins;
They were always seen together
Just when the fun begins.

Yes, there was you and Charley
Plough
And names long gone astray,
Faces in my memory pictured
Where they will always stay.

Bill Stratford sure could dance a jig
With Johnny Messert as his chum,
And between us we kept that corner
Warm.

From the setting of the sun,
Yes, they were happy days, my boy,
When we were young and gay,
And in my heart there is a spot
For those that have passed away.

J. G. BUCKLEY.
Fellows, Cal.
Mr. Buckley was a member of American Engine Company No. 1 of the Kingston village fire department, with headquarters on East Front street, now Clinton avenue, a short distance from St. James street. He has worn pinned on the lapel of his coat for over 50 years a small silver badge of the design of the old-time leather front of the firemen's hat, with the figure "1" engraved upon it.

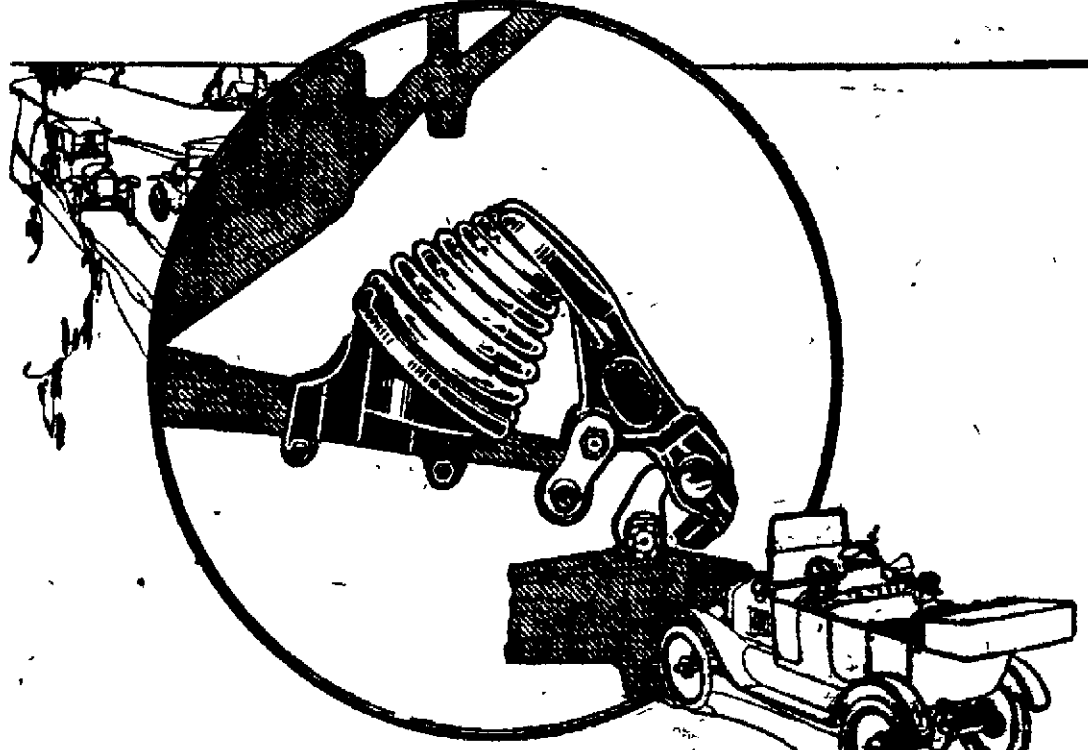

SEPARATE AFTER 17 YEARS.

Incompatibility of Temper Results in Suit for Separation.

Conduct which she claims caused her great anguish and suffering resulted in a suit for separation brought by A. Laura Fuchs against David Fuchs, which came before Judge Hasbrouck at Saturday's special term of the supreme court on a motion for alimony and counsel fees. D. S. Hill of Liberty appeared for the plaintiff and the motion: Mayor Canfield appeared for the defendant and opposed.

The parties were married twenty years ago and separated three years ago. The plaintiff is 50 years old; her husband is 65. An action begun in Westchester county resulted in an agreement by the defendant to pay his wife \$15 a week, but payments were discontinued after a time. The husband thought the papers he signed that time in some way were separation agreements. There are two children, one of whom has been blind since birth. The wife now lives on a farm at Low Beach, near the Ulster county boundary line.

Mayor Canfield, in opposing the application, said the wife was self-supporting, her husband having surrendered to her his property at \$50 a month, in addition to which she lives on the farm at Low Beach. Her husband, he said, is a telegraph operator for the Western Union Telegraph Company, working on a commission basis—the only operator in the country who does—and paying the expenses out of the earnings, which amount to about \$140 a month.

Enjoy your Ford more—at less cost!

OF COURSE, you would enjoy your Ford more if it were free of shocks and bumps. And you can make it ride smoothly, comfortably, over all roads, if you equip it with Hassler Shock Absorbers.

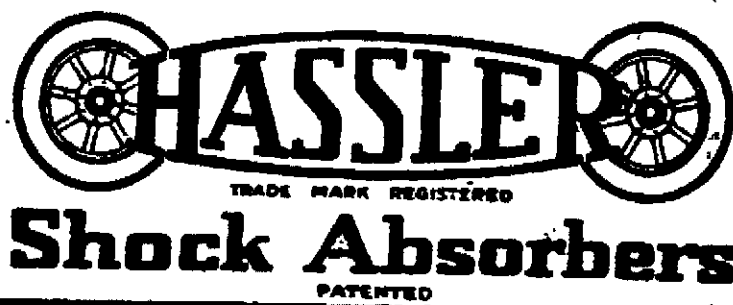

Yet at the same time your car will be costing you less, for Hasslers mean definite savings of one-third of tire and up-keep expense. And they make it last a third longer. The added comfort alone is worth while—something very much to be desired. The unusual economy is something you cannot afford to overlook.

We will put on Hasslers—no matter what model of Ford passenger car or truck—and allow a 10 day trial. Money refunded in full if you're not pleased.

39 St. James St., Kingston.
Phone Kingston 1603.

Both attorneys said they were desirous of trying the case as speedily as possible, and Judge Hasbrouck said he would hold the matter for two weeks, at the end of which he would decide the motion for counsel fees provided the case meanwhile had not been tried before Judge Joseph Roach at his chambers, in which case counsel should ask him to pass on the matter of alimony and counsel fees.

PHOENICIA.

Phoenicia, May 7.—Sunday morning May 3, Mothers' Day was observed in the M. E. Church.

Sunday evening, May 5, the M. E. Church service was in charge of the League. A special program was arranged and the topic centered around "The Memory of the Lord."

Winn's bus line started out on new time and Phoenicia from old time watched the bus depart but now Phoenicia has swung into new time and beat the sun out of an hour's race. But according to the new theory of discovery it may be that the state legislature hasn't put anything over on Old Sol after all, while Old Sol may have the laugh on "H.L." A very mysterious glowing patch is now seen opposite the sun and it looks as if it is attached to the earth like a comet-like tail. The question is, has our saving the daylight given a surprise to Old Sol and enough to make this patch and he has been enabled through it to add to his "wandering" imagine the outcome if we continue

LIVINGSTON CASE
IN SPECIAL TERMInvolves Interesting Legal Questions
Pertaining to Livingston Manor
Property Now Occupied by Rail-
road.

Application by the New York, Ontario and Western Railroad Company for the appointment of commissioners to ascertain the value of land at Livingston Manor, Sullivan county, title to which was decided by Judge Nichols and affirmed by the appellate division to be in C. Victor Livingston of Flatbush, Ulster county, was made to Judge Hasbrouck at Saturday's special term of the supreme court. Charles L. Andrus of Middletown appeared for the railroad company and Mr. Dean of the firm of Dean, King, Tracy and Smith of New York city appeared for Mr. Livingston.

Mr. Andrus, in explaining the application to the court, said that certain issues were raised by the answer which had been interposed, which issues should be adjudicated first. He said Dr. Livingston, who had owned the lands, died in 1864, leaving a will by which he devised the lands to a nephew during the latter's life, and at his death to the oldest son of such nephew, Charles Octavius Livingston, upon whose death the lands were to go to other persons. Dr. Livingston enjoined his nephew from parting with the title or from conveying the lands to strangers. The life tenant, Charles Octavius Livingston, said Mr. Andrus, had disregarded this prohibition and conveyed the farm, a part of which comprised the land now in question, to Medad T. Morse, in 1870.

The Delaware, Orwigo and Midland Railroad, which was the predecessor of the New York, Ontario and Western Railroad, had built its railroad in 1871 and now owns thirteen acres of the original farm. The railroad continued in undisputed possession until after the death of Charles Octavius Livingston, when an ejectment action was commenced against the railroad. The case was tried and carried to the appellate division which had decided the plaintiff was in possession, and the present proceeding was brought by the railroad company under the power of eminent domain to perfect its title. The defendant by his answer, said Mr. Andrus, denied that was necessary to take these proceedings to perfect title. Later it would be important in the litigation to determine whether the railroad is on the land as a trespasser, but with the issue raised by this answer and until it was adjudicated, there could not be any commissioners.

Mr. Dean, for Mr. Livingston, said he joined in the application for commissioners. The present proceeding, he said, was ample for the railroad to acquire title and that was what the railroad was trying to do instead of trying to perfect title. The railroad had claimed in its briefs, he said, that it had acquired an interest on the theory that the will was invalid, but the appellate division had decided the railroad had entered as a trespasser, and his client had a judgment in ejectment against the railroad. The railroad, he said, was trying to get rid of paying for the fixtures—buildings, etc.

To Judge Hasbrouck's questions, Mr. Andrus said he had not anticipated being met with an answer that would raise issues necessary of adjudication before commissioners could be appointed, and consequently was not ready to proceed to trial, but that the testimony which would be offered would tend to show the facts of Dr. Livingston's will, the various conveyances and that the railroad had built certain structures on the land during the lifetime of Charles Octavius Livingston. All of which, he said, brought the parties next to the question of what constituted the measure of damages. The railroad claimed it was not a trespasser but had entered into possession rightfully and while in such possession had erected certain structures, and whether the value of such structures could be recovered was one of the questions to be determined.

Mr. Dean in reply said the questions stated by Mr. Andrus must be raised before the commissioners, and were properly raised when their report should come before the special term for confirmation. After further discussion, Mr. Dean said it was possible that he and Mr. Andrus might agree on the form of the order, and if they could not agree they would submit it to the court. The matter accordingly was held open.

Edward Bishop, chief engineer on the New York, Ontario and Western Railroad, is spending a few days at his home on Broadway. Mrs. Martha Holt of Broadway was the guest of Mrs. Mary Hinckman at her home in St. Nicholas church Friday. Adolph Munson of New York city is spending a few days at his home on Salem street. Mr. and Mrs. Hugh Clark and family of Newburgh spent the week-end with Mr. and Mrs. Oliver Fowler on Bayard street. Theodore, Kerich and daughter, Florence, of Kingston, spent Sunday with Mr. and Mrs. Henry Kerich on Stout avenue. Thomas Tucker, Sr., of New York city spent the week-end at his home on Broadway. Saul Cole who is employed at Remondale spent Sunday at his home on Broadway. Keep in mind the entertainment at the Kingston Hotel, Port Ewen, Tuesday evening, under the auspices of the Ladies Aid Society of the Methodist Church. The entertainment will be given in the chapel at 8 o'clock. A full attendance is most earnestly desired.

Mr. and Mrs. Clifford Wischell and daughter, Marjorie, of Kingston, spent Sunday with Mrs. Winchell's mother, Mrs. Emma Mahre, on Salem street.

All those who take part in the jubilee to be held in the Methodist Church Sunday evening, May 15, will meet this evening in the chapel at 8 o'clock. A full attendance is most earnestly desired.

Mr. and Mrs. Charles Bishop of the Kingston Laundry Company.

VAN WAGENEN'S

Operated by THE ROSS STORES, Inc.

\$2.50 Satin Charmeuse
\$1.89 yard

Do you know of any other silk that's more popular, more desirable and richer looking than a nice, heavy soft quality Charmeuse? All shades.

\$2.50 Heavy Imported Tan
Suiting Pongee \$1.98

Extra heavy weight for suits, skirts, etc., warranted all silk fabric. Comes in a rich shade of natural tan.

\$2.50 Newest Foulards
\$1.79

Twenty-five choice patterns to choose from. You can't help but admire these attractive designs on grounds of navy, opea, brown, black, etc.

\$1.50 Wash Satin \$1.00

36 inches wide guaranteed Wash Satin in flesh color. This quality cannot be duplicated again at this price.

\$1.00 Heavy Stripe Tub
Silks 69c

Yard wide. These were considered a bargain a short time ago at \$2.00. A splendid heavy weight silk fabric that will stand the hardest kind of tubbing.

\$5.00 Canton Crepe \$3.98

Your choice of a splendid variety of popular shades including the very latest.

\$25.00 Seamless Wool Fibre 9x12 Rugs \$16.85

Reversible, can be used on both sides—cool, durable and sanitary. Suitable for use in your city or country home.

\$19.00—7.6x9 Ft. Size \$13.98 \$17.50—6x9 Ft. Size \$12.50

\$49.00 Axminster 9x12 Ft. Rugs \$37.50

Selection of Chinese, Oriental and Persian designs. Extra heavy wearing quality for parlor, dining room or library.

\$45.00—8.3x10.6 Ft. Size \$34.50 \$29.00—6x9 Ft. Size \$19.98

\$1.39 Tapestry Stair Carpet \$1 \$3.25 Wool Velvet Carpet \$1.98

Heavy quality, new patterns, good values

For halls or stairs.

THE HALLROOM BOYS in "TELL US OJJA"

Fly's Wonderful Tongue.
The scolded tongue of the fly is not truly a tongue, but a tube with an expanded end, which the insect uses as a "siphon." Through this siphon the fly obtains its nutriment. The fly does not need to get down to its food but draws it upward by means of a "siphon." Nature has provided the fly with a siphon which is a tube with an expanded end, which the insect uses as a "siphon." Through this siphon the fly obtains its nutriment. The fly does not need to get down to its food but draws it upward by means of a "siphon." By Houghton Mifflin Co.

What do you want to know about nature subjects? Send any questions of general interest to the Nature Notes Department of this paper. Look for answers in this column.

Can You Answer These Questions?
1. What happens when animals hibernate? When do they begin?
2. How can we distinguish the oaks?

3. Do birds have eyelids?

Answers in Tomorrow's Nature Notes

Answers to Previous Questions

1. Do moles have eyes?

Yes, eyes are characteristic of all mammals, and exist in moles, though not much used in this creature's underground life. The mole's eyes need special protection to prevent injury from its habit of constantly dislodging dirt, and are almost covered by skin and hair, but as the creature has little need of seeing in the dark, it suffers no inconvenience in being almost eyeless.

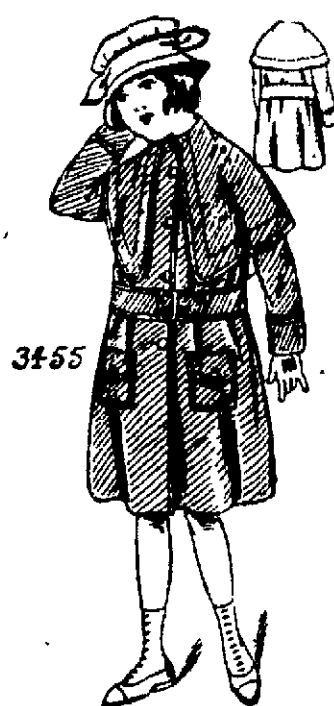

2. What is fox fire?

Fox fire is a term sometimes used to name the phosphorescence, or glow, seen in decaying or in rotten wood, or it may mean the wood itself. The phosphorescence is caused by the presence of phosphorus, a chemical element that is found in all fruitful soil, and in most natural water, and which belongs to the nitrogen group. Sometimes "fox fire" is used figuratively, meaning a false report, or humbug.

3. Do respiration and transpiration both take place directly through the leaves of a plant?

Yes, in respiration the leaves perform a sort of vegetable digestion, through whose action the products formed from the plant's food are transformed into energy necessary for the plant's growth. Transpiration is another work of the leaves, a way of getting rid of surplus moisture sucked by the roots in their work of absorbing chemical food from the soil.

OUR DAILY PATTERN.

A Comfortable Top Garment for Mother's Girl.

Pattern 3455 is here portrayed. It is cut in sizes: 6, 8, 10, 12 and 14 years. A 10 year size will require 3 1/2 yards of 44 inch material.

Chamois, tweed, serge, broadcloth, velvet, corduroy, heather mixtures, velours, duvetyn and taffeta could be used for this style.

A pattern of this illustration mailed to any address on receipt of 12c in coin or 1c and 2c stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

Catalogue Notice.
Send 15c in coin or stamps for our up-to-date spring and summer 1921 catalogue, containing 550 designs of Ladies', Misses', and Children's Patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various, simple stitches), all valuable hints to the home dressmaker.

SHANDAKEN.
Shandaken, May 7.—The District Stewards of the Kingston District New York Conference of the M. E. Church met at the Shandaken M. E. Church on Wednesday, May 4, from 10 o'clock to 2. A rather unusual gathering of ministers and laymen of this character for this church, as they came from all parts of the district. This church dates back to 1830 or prior thereto and is one of the oldest if not the oldest church in this town. Recently this church has been newly renovated and re-furnished within and presents a beautiful appearance. On Tuesday evening there was a public meeting to which every one was invited. This meeting was addressed by Dr. Elmer A. Hunt, secretary of the New York area, 150 Fifth Avenue, New York. Dr. Hunt in his usual eloquent manner gave us a fine message on the work and needs of the Centenary. Dr. George W. Grinnon, District Superintendent of Kingston District, presided over the different meetings in his able manner. After the public meeting was over there was a group meeting of all the leaders of the district, which was very interesting. On Wednesday the ladies of the church gave luncheon to one hundred and twenty people. Many came by automobile, the Rev. W. S. Mace of New York Conference was invited and gave the benediction and addressed the meeting. It was a happy occasion to have him here and his church in this district. Many were here.

AN OPEN LETTER

Through dark years and bright years, through the Spanish War and the World War, we have played fair to our patrons according to the rise and fall of the financial market.

We put quality ahead of our prices and stand back of every yard we sell. Our close buying direct from the mills enables us to always sell for less.

Our reputation of 28 years of faithful and honest dealings has enabled us to cater to the majority of Ulster, Dutchess and Orange counties.

Thanking you for the past and continued confidence, and trusting to serve you in the future as ever.

Sincerely yours,

M. E. DEEB.

LITTLE TALKS ON THRIFT

by S. W. STRAUS, President American Society for Thrift.

Practice thrift habitually. Make it as much a part of your routine as eating and sleeping. Get yourself systematized. Work on a definite schedule. Save regular amounts. Plan your work and your actions so that you will have no lost motion, no wasted energy.

These are among the secrets of success, happiness and progress.

The most important message that can be conveyed to the people of this nation today is, "Get the Thrift Habit." Practice thrift not for a brief interval or intermittently, but habitually.

Disraeli said, "The greatest secret of success in life is to be ready when your opportunity comes."

This brief sentence furnishes one of the best reasons for practicing thrift that ever has been given. It presents a phase of the question to which not enough attention is paid. Ordinarily thrift is looked upon as a means of safeguarding one against possible emergencies or of building up an accumulation of money for some

definite purpose. But there are many unexpected turns in the pathway of life. While it is true that we never know what trouble or disaster may befall us, we likewise never know what great opportunity is going to come into our lives from an unexpected quarter.

If we read the lives of the men of our country who have risen from poverty and obscurity to the greatest heights of success, we find that there were certain times in their lives when great opportunities presented themselves, that much of the success of these men was due to the fact that they were able to take advantage of such opportunities when they came.

When destiny called they were ready.

How often, on the other hand, have we witnessed the unhappy spectacle of some man, failing to rise to the complete possibilities of opportunity as a result of thriftlessness!

Thriftless habits will undermine any character and eventually lead to ruin.

ANNIVERSARY AT EAST KINGSTON

Methodist Episcopal Church Celebrates Thirty Years of Existence—The Rev. Mr. Coons First Presiding Elder, Present.

After union services had been held a long time at East Kingston May 10, 1891, a Methodist Episcopal Church was organized.

The late Luther L. Osterhout, a local preacher of this city, of blessed memory, had preached at the union chapel—built very largely by Mr. Brigham, and continued as pastor of the newly organized church for several years.

Then Fred H. Deming, just out of college, and a boy in years was crowded into the work by the late Dr. E. S. Osborn who was then the presiding elder.

In a letter from Dr. Deming which was read at the anniversary he said: "I had only decided that I would be a preacher a few weeks before the appointment, and I had no notion of taking work until I had taken a seminary course, but Dr. E. S. Osborn, the presiding elder of the Kingston district, sent for me to come to conference that year and then insisted that I should go to East Kingston. I refused again and again, and thought the matter settled, but when conference closed I received a telegram from Dr. Osborn saying, 'You are appointed to East Kingston.' There was nothing else for me to do but to go. I had never been in a pulpit, had never attempted to preach, had never given but a brief testimony in public."

"I was entertained at Brother Jacob Kisselburg's over night. It was raining hard when I reached there, and I lay awake all night praying that it would continue to rain so no one would come to hear me. The Lord continued the rain but he sent the house full of people. 'How I ever got through that service I do not remember. 'I do remember the text, 'For me to Live is Christ.'"

The whole letter was interesting but we will not quote more.

The Rev. Herbert Hazard of this city began his ministry then, and later local or supply preacher was sent. It was never really strong enough to support a preacher, although those engaged in the brick yards without regard to creed or nationality gave financial assistance.

It should be noted that the American population gradually decreased, and Irish, Italians, Hungarians, Slavs, etc., have taken their places, the larger part of whom are connected with the Roman Catholic Church.

For several years it became part of the Eddyville charge. Later the Rev. A. H. Haynes, a retired preacher of Kingston, found it without a pastor, and supplied its pulpit several years.

For a time it was without a pastor but in August, 1919, the Rev. P. N. Chase, a retired preacher in Kingston, was asked to take the

work, and still continues the pastor. Incidentally it might be mentioned that half of the present membership has been received during his ministry.

It was deemed best to observe the thirtieth anniversary of its organization, and this was done Sunday, May 8.

The day was beautiful, the house was crowded, and many of the former residents returned for the day.

Prayers were offered by the Rev. A. H. Haynes, who later spoke of his work. Then a duet was beautifully rendered by Margaret and Theresa Ssekere, and an appropriate solo for Mother's Day was sung by Ida Peck.

The pastor gave a sketch of the thirty years—the pastor, memberships, finances, etc.

The Rev. Alfred Coons, who was presiding elder when it was organized, spoke.

Charles M. Streeter of Kingston who was superintendent of the Sunday School for seventeen years, gave really the best address of the day.

It should be stated that the pastor read letters from the Rev. F. H. Deming, Herbert Hazard and W. H. Peters, former pastors.

Altogether it was a great day for the church and the handful of workers there will take new courage.

It might be added that painting the church outside and in and making needed repairs, is planned for this season.

P. N. C.

Old Korean Legend.

The Koreans explain the reason why sparrows hop on both feet instead of putting one before the other, and the reason why flies run their feet together when they alight, in the following way: The sparrow and flies had a quarrel and decided to ask the governor of the Korean provinces to arbitrate the matter. He found them both wrong and gave orders to have them both whipped, and it made the sparrows jump up and down with pain, and the flies put their hands together and prayed to be forgiven. The governor forgave them both, but as a sign he decreed that sparrows should always hop and that flies should rub their feet together when they alighted.

When You Whirl.

As things appear to be going around in a circle when we are dizzy—our common sense tells us that they must be stationary—it would seem that the fault lies in, or near, the ear—an organ which apparently has nothing to do with sight or feeling. Close to the ear is located the little organ which gives us our power of balance, permits us to walk upright without tottering, and, when properly trained, to assume postures which are distinctly outside the regular routine of our daily lives. Eccentric dancers, acrobats, athletes, and others have unconsciously trained this "balance wheel" until they can do strange things without, as we say, losing balance.

Gem Natural Thermometer.

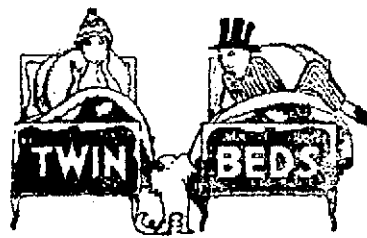

It was a wonderful sapphire, so it is said, that led the celebrated Dr. Sorby to the discovery of the nature of the liquid sometimes found enclosed in the cavities of crystals. The gem in question contained a tube-shaped cavity a quarter of an inch long and an eighteenth of an inch in diameter, which was so regular in its bore that it served by means of the liquid partially filling it, for a thermometer. The contained liquid half filled the bore at 50 degrees Fahrenheit, and completely filled it at 80 degrees. A study of the rate of expansion of the liquid led to the conclusion that it must be carbonic acid.

Western Hemlock.

Western hemlock, found in abundance in British Columbia, reaches a height of from 125 to 150 feet, with a diameter of from 2 to 5 feet, with occasional trees as high as 250 feet and 8 feet in diameter.

Greatest of Heroes.

If we must have heroes and wars wherein to make them, there is no war so brilliant as a war with wrong; no hero so fit to be sung as he who has gained the bloodless victory of truth and mercy.—Horace Bushnell.

KINGSTON, N. Y.

The Earl of Minto, who was married in Montreal, Canada, recently to Miss Marion Cook, of Montreal, took his wife to his ancestral home in England and followed out the old custom which decrees that a bridegroom must carry his bride over the threshold of her new home. The custom is said to be a relic of the runaway marriages of olden times. The photo shows Lord Minto carrying the new Lady Minto into the house.

An interesting camera study of Mrs. "Fifi" Potter Stillman, wife of James A. Stillman, the financier, made after the recent secret session of the hearing in the banker's divorce action at the Bar Association, New York. Mrs. Stillman was calm and smiling throughout the session, even during the sensational testimony against her by Dr. Hugh Russell, prominent in Buffalo and in New York city.

STEEGER STRUCK HIS STEPMOTHER

And It Cost Him \$15 And a Suspended Five Days Jail Sentence In Police Court When He Was Found Guilty After a Trial.

Harry Steeger, 32 years old, was found guilty in police court this morning of striking his stepmother, Mrs. Cora Steeger of No. 48 Gage street. In the face with his fist, in the early evening of June 7, 1919, and Judge Schirck fined him \$15 and gave him a five days' jail sentence, suspending the jail sentence during good behavior. He was represented by Judge W. D. Brinley, Jr., while Chris J. Flanagan appeared for Mrs. Steeger.

From the evidence brought out at the trial Steeger got drunk that afternoon and went home about six o'clock, and because he was asked to wait for his supper until his father returned from the barber shop he went out in the back yard and gathered some roses came back in the dining room and breaking up the roses began throwing them over the food on the table.

When his stepmother remonstrated with him the young man arose and going over to her grasped her by the throat and struck her in the face with his fist. Her daughter and grandson who were in the dining room at the time saw the assault, and so testified at the trial. After the assault when Mrs. Steeger attempted to use the phone to call the police the receiver was torn from her hands by young Steeger who then hurried from the house.

While he had been in town several times since 1919 he was not caught by the police until last week when the hearing was adjourned to today. Since then he had been arrested in New York, and convicted of a felony, that of receiving stolen goods, and sentenced. Just how heavy the sentence imposed by the New York authorities was not brought out.

Steeger denied the assault, but confessed that he had gone home drunk that afternoon, and claimed that the upsetting of the table was an accident as when he arose from the table when his stepmother grasped him by the collar his knee hit one of the table legs. He claimed that the trouble started because he told her she had no right to put a star in the service flag as he was not her son. According to his story she assaulted him and he did not lay a finger on her.

Altar Boys Won.
The Altar Boys of St. Mary's Church defeated the Foxhall Avenue All Stars by a score of 19 to 13. The game was played in Andrew street field. The batteries for the Altar Boys were Ellsworth, Sweeney and Barry, and for the Foxhall Avenue All Stars, Smith and Long, pitchers, and John Cullen, catcher.

DIED.

HOLBLEIB—At Ruby, N. Y., Sunday, May 8, 1921, John Holbleib, beloved son of the late Albert and Barbara Kolb, beloved brother of Lena and Frank Holbleib, in the 46th year of his age.

Relatives and friends are invited to attend the funeral which will be held from the late residence on Wednesday morning at 8:30 o'clock and from St. Wendelin's Church at Ruby, N. Y., at 9 o'clock, where a high mass of requiem will be offered for the repose of his soul. Interment in the family plot at St. Peter's Cemetery, Kingston. Funeral arrangements by Leo V. Grogan.

HAYES—In this city, Saturday, May 7, Daniel Hayes of Newark, N. J., in the 41st year of his age. Body now lying in state at the funeral parlors of Leo V. Grogan, at 37 Clinton avenue.

Funeral arrangements later.

KELLY—In New York city, Sunday, May 8, 1921, William, son of the late William and Mary Kelly, formerly of South Clinton avenue.

Funeral from the West Shore depot Wednesday, May 11, upon the arrival of the 2:10 p. m. train. Services at St. Joseph's Church at 2:30 o'clock. Relatives and friends invited. Interment in the family plot in St. Mary's Cemetery.

MOSHER—At Malden-on-the-Hudson, Wilson Mosher, in the 90th year of his age.

Funeral Wednesday morning at 10 o'clock at his home and 11 o'clock at the Wesleyan Church in Willow, burial in Willow cemetery.

CAN'T STOP LIQUOR TRAFFIC

In Kingston Without More Drastic Law, Declares Chief Wood—Laxity of Federal Enforcement Has Bred Criminals.

By Telegraph to The Freeman.
Albany, May 8.—Chief of Police J. Allan Wood of Kingston, answering a communication from the New York State Conference of Mayors as to whether or not in his judgment the police of that city are able to enforce the Volstead Act, has replied that he believes they are not. He writes at the present time men who have never before shown criminal traits are engaged in the liquor traffic in some form. The reason for this is that the Federal forces have been so lax in the enforcement of the Volstead Act that the fear of violation of the Federal act has passed, and large numbers formerly in fear of the Federal forces are now boldly carrying on a criminal practice. The Police Chief advises that the law be made more drastic—so drastic that a policeman has something to back him when making an arrest.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Accord, May 9.—Mrs. Terwilliger of Accord died early Saturday morning. Funeral from her late residence Tuesday afternoon at 2 o'clock.

Mrs. James Hyde of Highland, widow of the late Captain James Hyde, died at her home Monday, May 8. Funeral services were held Thursday afternoon.

Hudson Wilson Mosher died at Malden in his 90th year. Funeral will be held Wednesday morning at 10 o'clock at the Wesleyan Church in Willow. Interment in Willow cemetery.

Daniel Hayes of Newark, N. J., died in this city, Saturday, May 7. His body is now lying in state at the funeral parlors of Leo V. Grogan, 37 Clinton avenue, where the funeral will be held later.

William, son of the late William and Mary Kelly, formerly of South Clinton avenue, died Sunday, May 8, in New York city. Funeral will be held from the West Shore depot Wednesday, May 11, upon the arrival of the 2:10 p. m. train. Services at St. Joseph's Church at 2:30 o'clock. Relatives and friends invited. Interment in the family plot in St. Mary's Cemetery.

John Holbleib died at his home in Ruby, Sunday, May 8, following a brief illness. He has a host of friends who will mourn his death. Funeral will be held from his late residence, Wednesday morning at 8:30 o'clock and from St. Wendelin's Church at Ruby, N. Y., at 9 o'clock, where a high mass of requiem will be offered for the repose of his soul. Interment in the family plot in St. Peter's Cemetery, Kingston.

Mrs. Mary Louise Lasher, wife of the late George C. Lasher, died of heart trouble at the home of her daughter, Mrs. William Symonds, 33 Hudson street, Oneonta, at 3 o'clock Friday afternoon. Mrs. Lasher spent most of her life at Big Indian, and came to Oneonta only last June to live. Besides her daughter, Mrs. Symonds, there survive one son, Glenford Lasher of Big Indian; a sister, Mrs. Elmer Dunham of Spruett; and an infant grandson, Albert Symonds. Mrs. Lasher was born at Lexington, October 11, 1856, the daughter of the late Gilbert and Margaret Barber Beckwith. She was married to George C. Lasher at Big Indian in 1877. She was a member of the Westkill Methodist Church and her life was one of Christian service and generosity to the many she knew and loved so well.

Pastor Surprised.
What may be termed a real old-fashioned surprise was tendered Saturday evening, at 8 o'clock to the Rev. E. O. Clark, pastor of the Franklin street A. M. E. Zion church and his family, by the Daughters of Salome. The affair was well planned and every secret most carefully guarded, making it a complete surprise. The pastor declared, "Seven members of the organization were present, the ladies on their way singing 'We are all here; do thy love to harm.' Soon after they arrived home, the requirements of a big Saturday evening's marketing and then all departed silently from whence they came.

Pretty Linen Shower.
A linen shower was given to Miss Mary Brethaupt of 84 East Union street. She received many beautiful gifts of silver, linen and cut glass. Refreshments were served at 11 p. m. The guests departed in the wee hours of the morning, taking Miss Brethaupt a royal entertainer and wishing her a very happy future. Those present were Mr. and Mrs. Allan Delamater and son, John, Mr. and Mrs. William Brethaupt and daughter, Bertha, Mr. and Mrs. Albert Schwab and son, Albert, Mr. and Mrs. John Tonsky and son, John, Mr. and Mrs. Joe Ditch and son, Joseph, Mr. and Mrs. Charles Gassen, Mr. and Mrs. Jess Boice and son, Wilson, Mrs. Charles McClung, Mr. and Mrs. Frank Buntin, Mr. and Mrs. Jacob Scherter, Miss Anna Stenlein, Miss Anna Porch, Miss Marie McMan, Miss Jessie Gruber, Mr. and Mrs. C. Dittus, Mr. and Mrs. H. Dittus and son, Edward, Mrs. Joseph Moore, Mrs. Chris Orlich, Arthur Dittus, Conrad Schuler, Miss Helen Schuler, Mrs. H. Emiz, Mrs. J. Emiz, Mrs. S. Baddington, Mr. and Mrs. Fred Phil, Mr. and Mrs. Joseph Schuler, Mrs. James Martin. These present from out of town were Mrs. DeWitt W. Boice and daughter, Grace and John Delamater, all from Baltimore, Md., Mr. and Mrs. E. M. Stoker of Poughkeepsie, Mr. and Mrs. Ed. Henschler, Poughkeepsie, Mrs. Martha Goldman of New York.

COLONIALS LOSE TO SAUGERTIES

Saugerties won the opening game in the series to decide the semi-professional basketball championship of Ulster county by defeating the Colonial Big Five of this city in the Catskill armory Saturday evening by a score of 23 to 11. The next game of the series will be played Wednesday evening in the armory here, and undoubtedly there will be a record breaking attendance. The summary of Saturday's game:

Saugerties.	FG.	FP.	TP.
Smith, If	1	2	1
Deer, rf	1	1	1
Keeley, c, lg	1	2	1
Dowling, lg, c	1	2	1
Howe, rf	1	2	1
Robinson, lg	0	0	0
Totals	8	7	23

Colonials.	FG.	FP.	TP.
Dolson, If	0	0	0
Murphy, rf, lg	1	1	1
Gregory, c	0	0	0
Spall, rg, c	2	1	5
Shils, lg	0	0	0
McGrane, rf	0	0	0
Totals	3	5	11

The summary: Score at end of first half—Colonials, 8; Saugerties, 4. Fouls committed—Colonials, 17; Saugerties, 16. Time of halves—20 minutes. Time keeper—Fitzsimmons. Referee—Grobe.

SOCIETY NOTES.

Engagement Announced.

Mr. and Mrs. Ernest Ludwig of Hawley, Pa., announce the engagement of their daughter, Miss Harriet to John Bode of Eddyville, N. Y.

Van Vlieden-Van Derburgh.

Tuesday evening at 7:15 o'clock Margaret Van Derburgh of Haines Falls and Frank Van Vlieden of the same place, were married by the Rev. George M. Cranston. They were attended by Mr. and Mrs. R. Kubick. The young couple will reside at Haines Falls where a nice new home awaits them.

Van DeBogart-Porter.

A quiet wedding took place at the home of Mrs. Hannah Van DeBogart in Mt. Tremper Saturday evening, May 7, at 8 o'clock, when her grandson, William E. Van DeBogart was married to Miss Lillian G. Porter, formerly of Kingston. The Rev. R. P. Ingersoll performed the ceremony. The young couple will make their home with the grandmother in Mt. Tremper.

Friends Dine Loughran.

Roger H. Loughran, son of Dr. and Mrs. E. H. Loughran, who sails for South America, May 25, was given a dinner by a party of his friends Thursday night in Jack's restaurant, New York, the arrangements being delegated to Joseph Drake, who did not fall down on his job. Mr. Loughran will become connected with the law firm of Edye, Bollard & Roche, 46 Reconquista, Buenos Aires.

2,000 DAIRYMEN ATTEND PICNIC

Big Celebration of Consummation of Pooling Plan And Finds Spirit of Unity Among Ulster and Orange Milk Producers.

Over 2,000 dairymen of Ulster and Orange counties attended the Dairymen's League picnic at Wallkill on Saturday, May 7th. The attendance was by far the largest at any gathering of dairymen held in this part of the state in several years.

The picnic was held in celebration of the completion of the pooling plan with over 50,000 members when it went into operation on May 1st.

The morning was devoted to an inspection of the creamery and renewing old acquaintances. Lunch and milk drinks were for sale on the grounds and also all Dairymen's League products were for sale. Two bands were on the grounds and furnished music all day—Matsenbender's Band of Kingston and the Walden Band.

After lunch the dairymen and their families congregated in one of the large packing rooms at the condenser where a temporary stage had been erected. Chairman J. G. Petherbridge president and the meeting was opened with community singing under the leadership of H. M. Eppes of Accord, accompanied by Mrs. Morse of Kerhonkson. T. E. Millman, manager of the organization department of the league then spoke of the organization of the league under the cooperative pooling plan. John J. Dillon, of the Rural New Yorker then spoke of the progress of cooperation.

This was followed by short talks from John Hoffman of Middletown, John Y. Grogan and Chester Young all of whom urged the dairymen to stand by the pooling plan and work to get all dairymen into the plan.

The big event of the afternoon was the vaudeville sketch "It's All On." by Mr. Eppes of Accord. Mrs. L. D. Sahler of Stone Ridge and Mrs. Morse of Kerhonkson.

The sketch included many witty jokes of a local character and some very pleasing singing by Mr. Eppes and Mrs. Sahler and a piano solo by Mrs. Morse.

The whole meeting showed strong evidence of a feeling of good fellowship and a determination to make the cooperative marketing of milk and its products a success by the pooling plan of the Dairymen's League Cooperative Association.

ABOUT THE FOLKS.

Chester Steen of New York is visiting his mother, Mrs. Elmore E. Carson, 78 North Front street, who is critically ill.

H. Feistadt, R. Feistadt, R. Woodward, E. Prince and C. McFadden motored from Bayonne, N. J., and visited Sunday at the home of J. Schussler on Catherine street.

Mr. and Mrs. Oscar Iseman of Rochester, who have been the guests of Mrs. Iseman's parents, Mr. and Mrs. Thomas at their home on St. James street, have returned to Rochester.

Mr. and Mrs. Clement Wall of Chicago are receiving congratulations over the arrival of an eight pound boy. Mrs. Wall was formerly Miss Ethel Johnson, a daughter of Mr. and Mrs. W. G. Johnston of No. 202 West Chestnut street.

Philip S. Cover of 85 Emerick street is being treated at the Polyclinic Hospital, New York city, for injuries received during his service in the World War overseas. His many friends hope for his speedy recovery.

The Messrs. Williams, Hewlett, Haicht, Lacey and Schartz, spent a most enjoyable week-end visiting Kingston's most interesting centers. They are students at the Oregon school of Forestry, having come east on matters of advanced forestry.

FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman.
New York, May 9.—The stock market opened active and irregular this morning, with heavy selling in the motor shares the feature. Pierce Arrow was weak, falling two points to 36. Studebaker dropped 3/4 to 85 1/2. United States Steel was down 3/4 point to 85 1/2. Crucible dropped 1/2 at 84 and Republic Steel was off 1/4 at 64 1/2. Baldwin Locomotive dropped 1/2 to 30 1/2. Canadian Pacific rose 1/4 to 116. Cuba Cane Sugar rose 1/4 to 25 1/2. New York Central declined 1/4 to 71 1/2 and Sinclair Oil advanced 1/2 to 28 1/2.

Speculative operations were governed to a great degree by a disposition to wait for further development in what the street regards as a pending automobile war resulting from the organization of a new company by interests that formerly have been active in the affairs in General Motors.

In the railroad list making those stocks more prominent than they had been in a long period. Transactions in Erie common were on an old time large scale, that stock advancing from 14 1/2 to 15 1/4, a new high for the year.

The market closed irregular; government bonds unchanged; railway and other bonds irregular.
